

14th Feb. 2011

Hello,

My name is Wankai Yueti,

My Husband Eddie Yueti were part of a National Organization delivering TIKAZA RIZGA treatment to the people. Within that time, a was also training Anheria and Kaimahi.

It was quite a workload and eventually I suffered a "stroke". Fortunately however, I was able to teach my Trauses, (Taura) to treat me through Heri Heri etc., as part of their training but, because of my workload, a was left with restricted use of my right arm and both shoulders.

It is understandable that although I was caring for others, I was unable to treat myself, so I looked for other alternative treatment.

I saw an advertisement in The Local Leader on "Acupuncture" and went to see the specialist - whom I realised was also Spiritual. She treated me and completely cured me of my Paralysis and since then, has helped me with many other problems. Weak Bladder, Weak Kidneys, Water Retention, Stress related problems. I became involved in an accident - My left Femur was broken and my knee was severely ~~paralysed~~ punctured. Thanks to Acupuncture treatment, I was able to straighten up and walk properly.

At present, Mr Helen is treating me for "concussion" I fell and injured my head. A Hospital Scan revealed the reason for my "kiddie spells".

I am seventy three years old, and the Doctor's comments were, I had "concussion" but the good news is, "my Brain was in very good condition considering my age".

I write this with Great Sincerity and I thank Mr Helen Lin for the wonderful care she has given me and on her word "she will continue to do so."

I have been very fortunate, and I am hopeful too that this writing will help
